

## Science

What do you associate with the word 'skeleton'. Discuss this with the people at home.

**Skeletons (Activity 1)** – With an adult, read through the information on the human and animal skeletons. Discuss and verbally answer the onscreen questions.

**Naming Bones (Activity 2)** – Using the clues and the word bank, can you label or list the bones of the human skeleton with their common names? Then play a bone naming game!

**Animal Bones (Activity 3)** – Can you label or create a list of the bones you recognise in the two animal skeletons? How are they similar and different to those of humans?

## D&T

### Packaging

This week's challenge is to design packaging for your sandwich.

Think back over the packaging work you have done in the last couple of weeks.

You need to use the activity sheets to help you but please do not feel that they have to be printed. You can present your work as creatively as you wish.

## R.E.

People call Jesus a teacher. Create a list of the key 'ingredients' that are needed to make a good teacher. Write a recipe for the perfect teacher.

This week you are going to think about why Jesus was a good teacher.

Watch 'The parable of the two builders' <https://www.youtube.com/watch?v=JbOYTNDYxIs> and think together about the meaning.

Have a go at building two structures out of paper or straws. Secure one of your structures down to its base. The other one is to be free-standing. How is this like the two builders.

Christians say that Jesus is the foundation of their lives. In what ways do Christians build their lives on Jesus?

## Healthy Humans

WC: 4th May  
2020

## Computing

We will learn about programming by visiting

[https://studio.code.org/s/express-2019?section\\_id=2793409](https://studio.code.org/s/express-2019?section_id=2793409)

and complete lessons 1-2.

It starts easy and gets harder.

## D&T

### Sandwiches

This week's challenge is to have a go at creating your sandwich!

If you have the ingredients for your sandwich at home have a go at making it.

Pretend that the people in your home are customers in your café and think about the key tips on the sandwich help sheets.

If people at home try your food ask them for feedback and share it with a picture of your sandwich for us to see on Seesaw.
