

HTML - Have a go.. Using Wordpad or a text file creator to type out and save the HTML below.

It shows the coding that should create the webpage as shown on the right. You can change the text 'It was a beautiful day' and the image to something of your choice.

```
1 <html>
2
3 <head>
4   <link rel="stylesheet" href="style.css">
5 </head>
6
7 <body>
8
9   <h1>My Story</h1>
10
11   <div>
12     
13     <p>It was a beautiful day...</p>
14   </div>
15
16 </body>
17
18 </html>
```

My Story
