

Fractions on a Number Line

Example

What fraction is the arrow indicating on the number line?

How many sections is the line divided into?

How many sections along are we?

Fractions on a Number Line

What fraction is the arrow indicating on the number line?

Fractions on a Number Line

What fraction is the arrow indicating on the number line?

Fractions on a Number Line

Mark $\frac{2}{3}$ on the number line.

Fractions on a Number Line

What fraction is the arrow indicating on the number line?

Fractions on a Number Line

Mark $\frac{9}{10}$ on the number line.

Fractions on a Number Line

Mark $\frac{5}{8}$ on the number line.

Fractions on a Number Line

Mark $\frac{4}{9}$ on the number line.

Fractions on a Number Line

Mark $\frac{5}{6}$ on the number line.

Fractions on a Number Line

Mark $1\frac{1}{3}$ on the number line.

Fractions on a Number Line

What fraction is the arrow indicating on the number line?

Fractions on a Number Line

What fraction is the arrow indicating on the number line?

Fractions on a Number Line

Mark $\frac{9}{4}$ on the number line.

Example

Draw an arrow to indicate where $\frac{4}{5}$ is on the number line.

How many sections is the line divided into?

How many sections along do we need?
