

Item Sheet For Your Mission To Mars

You have to decide which 6 items you will choose to take with you on your mission to Mars. Use all the information you have researched about the planet Mars. You now have to be a scientist and use this information. If you are not sure about how any of these items work you will need to research them. Again your parents have some 'Top Tips'. Discuss it with them!

Drinking Water

Hiking Boots

Digital Camera

Laptop

Spade

Bicycle

Compass

Spare Oxygen

Pickaxe
