

Science

Mighty Muscles (Activity 1) – With an adult, read through the information on muscles. Discuss and verbally answer the onscreen questions. (You do not need to print out or write up your answers for this task, just discuss them).

Muscle Pairs (Activity 2) – Go to <https://www.bbc.co.uk/bitesize/clips/zj2kjxs> and watch the short video clip about muscles. Using what you have learnt, complete the 'Muscle Pairs' activity sheet, explaining how muscles work.

Moving Muscles (Activity 3) – Using the picture prompts, can you predict and then find out which muscles you use for different activities.

D&T

Packaging

Why is evaluation such an important part of the designing and making process?

Go through the questions on the Packaging Activity Sheets and think about your answers.

Complete an evaluation sheet of your packaging product.

PSHE

What does 'healthy' mean?

Draw the outline of a large shape to represent 'healthy' e.g. an apple.

Draw and write on your shape all the ways in which we can keep healthy.

Using different colours try to sort your ideas for keeping healthy e.g. types of exercise.

What do Jesus' miracles say about him? Is Jesus inspiring because of his miracles?

Read about the miracle of Jesus healing a blind man https://www.bibleforchildren.org/PDFs/english/Jesus_Heals_the_Blind_English.pdf

Many of Jesus' miracles required the person to have faith in him.

Imagine that you have just seen Jesus perform the miracle. Do a radio interview about this miracle. You could write your own questions and answers and then have a go at recording it for Seesaw.

Computing

Keep going with coding by completing lesson 5 'Creating Art with Code' and lesson 6 'Loops with Ray and BB-8'
