

Home Learning

The Hungry Caterpillar is still really hungry this week, can you help the caterpillar to choose some healthy options for lunch. I have found more caterpillars in my garden this week and they have lovely patterns on them. When I looked closely I noticed that the caterpillars had repeating patterns. We are also looking at doubling numbers 1-10 this week, activity four is based on a doubles rap, we had started to learn this in class. Rather than using You Tube, I think the children will do really well at making up their own actions and rhythm for the Rap.

Year Reception

This Week's Maths Tasks	WC 18 th May
Mental Maths: <ul style="list-style-type: none"> • Play a board game but double each roll on the dice ie Snakes and Ladders • Play I went to the shop and bought '2 teddies for you and 2 teddies for me' How many did I buy. Change the question each time. • Practice number formation: remember to have a go at the numbers 10 -20 • Number Bond Rhyme: counting in two's with odd and even numbers. The children love this one, I've added the words below. • Doubles Rap: We had just started to learn this 	
	
Activity 1 - 	using a selection of food, let your child make a repeating pattern lunch for themselves or everyone.
	
Activity 2	<ul style="list-style-type: none"> • Make different caterpillars for your garden using repeating patterns for the body. Try and make some of them really tricky with different designs on them. For the egg box caterpillar, I made it so the body parts could be moved and the repeating pattern could be changed.

Activity 3

- Make ice-cream cones for double numbers
- Play a game of shop with the paper ice-cream cones. Ask your child to double the amount of scoops you ask for.
- Put the cones somewhere you can see them and ask your child to double numbers over the next week

Activity 4

- There is a picture of the 'Doubles Rap' below.
- Make your own rhythm for the Rap and practice saying it. Can you make some actions for the 'Doubles Rap'?

Useful Links and Videos

Hit the button have a good double game to 10 when the children are confident with doubles <https://www.topmarks.co.uk/maths-games/hit-the-button>

I'm a number Bond and my name is Steven, I like numbers if there even, all those numbers taste just great if the end in 2,4,6,8 (high pitch, squeaky voice).

I'm a number Bond and my name is Bod, I like numbers if there odd, all those numbers taste just fine if the end in 1,3,5,7 or 9 (deep, low voice).
