

Science

Circulatory System— Label the parts of the heart and explain what each function does.

Geography

Natural disasters—Think about the key word for our new topic 'Journeys', what journeys happen in life? For example the human and plant life cycles and the water cycle. Put a title of 'Journey' in the middle of your page and draw and write about as many journeys as you can think of!

Titanic— Using the world map-map out the Titanic's maiden voyage, label the places she visited.

Computing

https://studio.code.org/s/express-2019?section_id=2793409

Using the link above-this will take you to a Computing Website where there are many different sections. Work through the lessons on Sequencing 'Collecting treasure with Laurel'. Share your work on seesaw if you can.

Titanic-Hit *and Sunk*

W/C 01.06.2020

PE

Continue to keep fit and healthy by joining in with Joe Wicks morning workout-create your own 30 minute workout and share with me-I will aim to try them all out!

Art

Pencil sketch a picture of the Titanic, try to fill the whole A4 page and try to maintain the scale!

RE

What is faith?

Think about our previous RE topic of 'Faith' and what it means. What do you have faith in and why? Answer this question as creatively as you can.
