

Geography - Volcanoes—journey of lava and Earthquakes

Kensuke's Kingdom is a fictional island set somewhere in the Pacific Ocean. The Pacific Ocean is earth's biggest ocean. The countries associated with the Pacific ocean have more of a risk of experiencing earthquakes and volcanoes forming.

Task 1: Use an Atlas, if you have one, if not use Google Earth to remind yourself of the oceans of the world. Specifically the Pacific Ocean.

Task 2: Have a read of the **Planet Earth—A Fact File**.

Task 3: Watch the video **Mountains_Earthquakes_Volcanoes**, if it doesn't play try to find it on Youtube.

Task 4: Research earthquakes and volcanoes, find where they happen in the world and what are the consequences to humans.

PSHE—Connections

How are we all connected?

We are connected by similarities, the main one being, we are all human.

However, within this we are all different.

Task 1: choose and watch one video from:

<https://www.bbc.co.uk/bitesize/topics/zgattyrd/resources/1>

Then write about what the similarities and differences are.

Science—What makes a living thing?

Think back to what you know about 'Basic Needs'

Task 1: Try, without asking or looking to write down the 5 basic needs of all living things.

We can determine a living thing by using an acronym—have a look at: **MRS NERG Sheet 1**

Task 2: try to choose 3 Living things and make a list for each of the letters— MRS NERG.

Next week we will look at MRS NERG in more detail

Computing — Media

What is media?

What are the different types of media reports?

How is this connected to computing?

Task 1 : Use a dictionary or internet to find and write down a definition of the word media.

Task 2: Ask at home to make a list of the common names of social media that is used in your household.

Task 3: Try to find some reporting of sports in Social Media, there's lots about sports restarting after lockdown at the moment. Try to find and make a note of the same sport being reported in two different types of social media? Does it say different things?
