

Home Learning

This week we are covering doubling numbers and counting in groups of 5's. Since the autumn term we have been doing the 'Dinosaur Stomp' number counting, with a clap on any number that is a multiple of 5, this should help the children now as we learn to count in 5s. Children often like the rhythm of counting in 5s and it helps them with a wider knowledge of numbers beyond 20. Write the numbers 1-40 out for your child, then count in 5s and circle them, the children can then see the pattern of the numbers ending with 5 or 0. This will help them identify multiples of 5 on a number line or number square, don't worry if they are not confident in counting to 100 it is all good practice. If you still have your stones and sticks you can put them in groups of 5 and then count them (or use toys). Try different ways to practice number formation to twenty so that it becomes easier and easier, if you can, try keeping it varied and fun: chalk, shower door/ mirror, mud, sand, paintbrush with water on the ground etc.

Year Reception

This Week's Maths Tasks	WC 22 nd June
<p>Mental Maths: Counting to twenty</p> <ul style="list-style-type: none">• Dinosaur Stomp• 3 addition sums and 3 subtraction sums.• Number formation and ordering to 20• Counting in 5's• High five my number: One more and one less.• Doubles song	
<p>Activity 1 -</p> <div data-bbox="203 1062 322 1193"><p>Doubling</p></div>  <ul style="list-style-type: none">• Place 1-10 objects on a piece of paper.• use a mirror to double the number.• Can you write the sum	

Activity 2

- Paper chains double numbers
 - Use two different colours.
- i.e. $2+2$ Blue for the first 2 and then green for the second 2.

Activity 3 Counting in 5s

Today is all about multiples of 5, here are some ideas

- Counting in 5's remind the children of dinosaur stomp.
- Can you can make a fish version? Maybe you could record it?
- Go for a walk, count in ones but every five steps 'hop'
- Can you take it in turns counting in ones like a tennis match, every time you get to a multiple of 5 say 'POP', it's tricky to start with but with practice it is fun.

Activity 4

Counting in 5s

- Make a number line/ number grid with the numbers 1-50 on it.
- Colour in the multiples of 5 on a number line. Use the 'dinosaur stomp' counting or the You Tube counting in 5s song to help you.

Seaside Number Grid

A 5x10 grid of numbers from 1 to 50, set against a seaside-themed background. The background includes a lighthouse on the left, a blue sky with a white cloud on the right, and a colorful beach scene at the bottom with a beach ball and a bucket. The numbers are arranged in five rows and ten columns.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
