## 10 x 10 Grid

Group 1 Coordinates:

Polygon 1: (2,1) (3,3) (4,1)

Polygon 2: (1,5) (1,7) (3,7) (3,5)

Polygon 3: (6,1) (9,1) (9,3) (6,3)

Polygon 4: (3,10) (1,10) (3,8)

Polygon 5: (7,9) (5,7) (6,5) (8,5) (9,7)

- What polygons have you drawn? List their names.

In your workbook create a 10 x 10 Grid as above.

Then mark each coordinate on the grid as **my example** for Polygon 1:

IMPORTANT: Mark you coordinates using the first digit on the X axis and the second digit on the Y axis.
