## Tuesday's Maths Sheet

## Learning Objective: Multiply 2digits by 2 digits

Your Maths Pack has a number of resources that will help you. The 'Place Value Headings' sheet is useful, there should also be some dice in the pack.

Please complete at least 5 minutes on Times Tables Rockstars and also play https://www.transum.org/Software/Fast Factors/Default.asp 'Fast Factors' to improve your times table recall even more.

## Practise

1. Here are 2 ways of calculating $44 \times 32$. Which method do you prefer and why?

2. Use dice to create 5 more 2dx2d calculations and use the grid method to answer them.

## Reasoning and Problem Solving

3. 

## Eva says,

To multiply 23 by 57 I just need to calculate $20 \times$ 50 and $3 \times 7$ and then add the totals.

What mistake has Eva made?
Explain your answer.
4.

Amir hasn't finished his calculation. Complete the missing information and record the calculation with an answer.

| $x$ | 40 | 2 |
| :---: | :---: | :---: |
| 40 | $000 \theta$ | 08 |
|  |  | 00 |
| 6 | 0000 | 00 |
|  | 0008 | 00 |
|  | 0880 | 08 |
|  | 0000 | 00 |

## Answers

## Reasoning and Problem Solving

3. 

Eva's calculation does not include $20 \times 7$ and $50 \times 3$
4.

Amir needs 8 more hundreds, $40 \times 40=1,600$ and he only has 800
His calculation is
$42 \times 46=1,932$
