

Investigating India

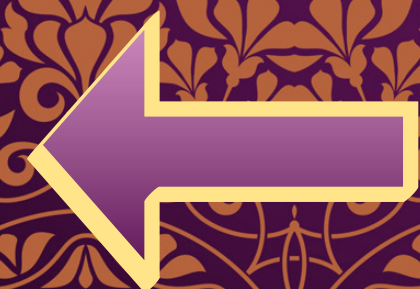

Learning Objective:

To explore the human and physical features of cities in India.

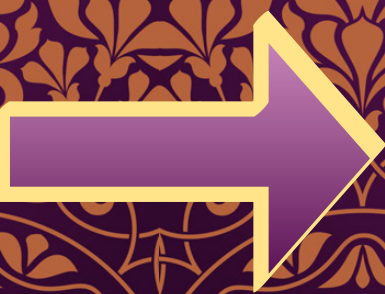

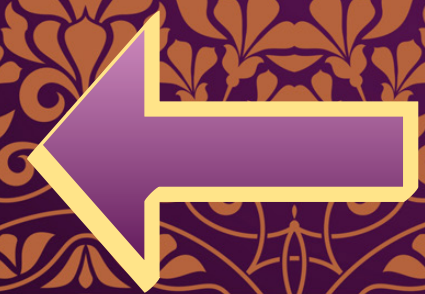

Do you know any
cities in India?

Think, pair, share

What is the capital
city of India?
Has anyone visited
India?

New Delhi is the capital city of India. The city is found in the district of Delhi. The Indian government is there and the official buildings. There are about 250,000 people living in this city.

New Delhi is in Northern India and is close to the banks of the Yamuna River.

What kind of buildings and sights might you see in New Delhi?

Before you answer that question you need to
know what human and physical features are.
Do you know?

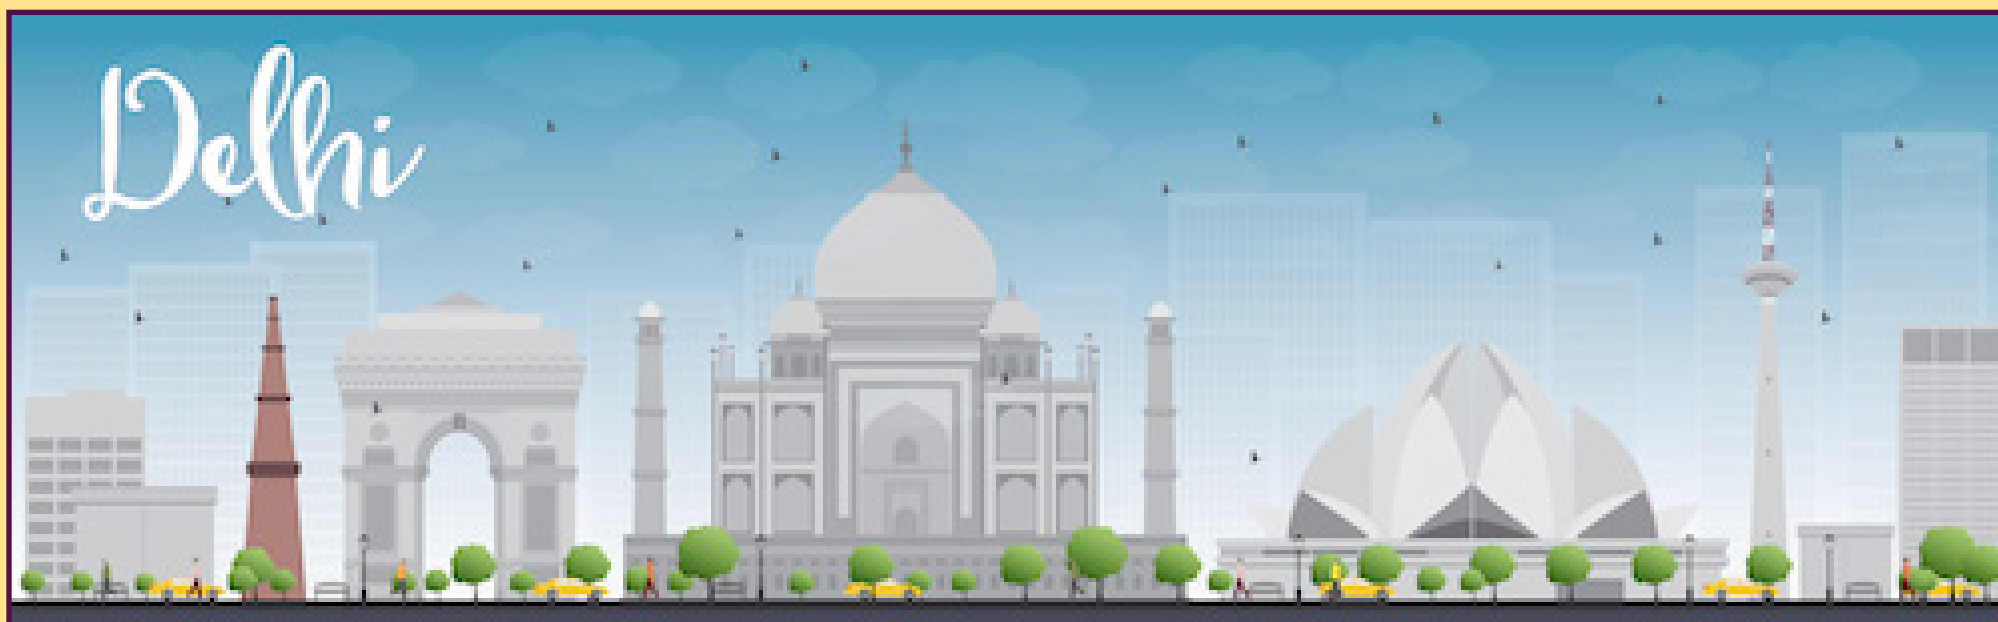

You need to know what these
features are so you can describe
and explain the geography of
different cities.

Hmm! I wonder what they mean.

Human Features

Human features are structures that have been built or made by humans. They are not natural objects. The people and the culture of a city fall into this category.

Physical Features

Physical features describe the natural environment of a city or area. The climate, land formations, types of animals and plants fall into this category.

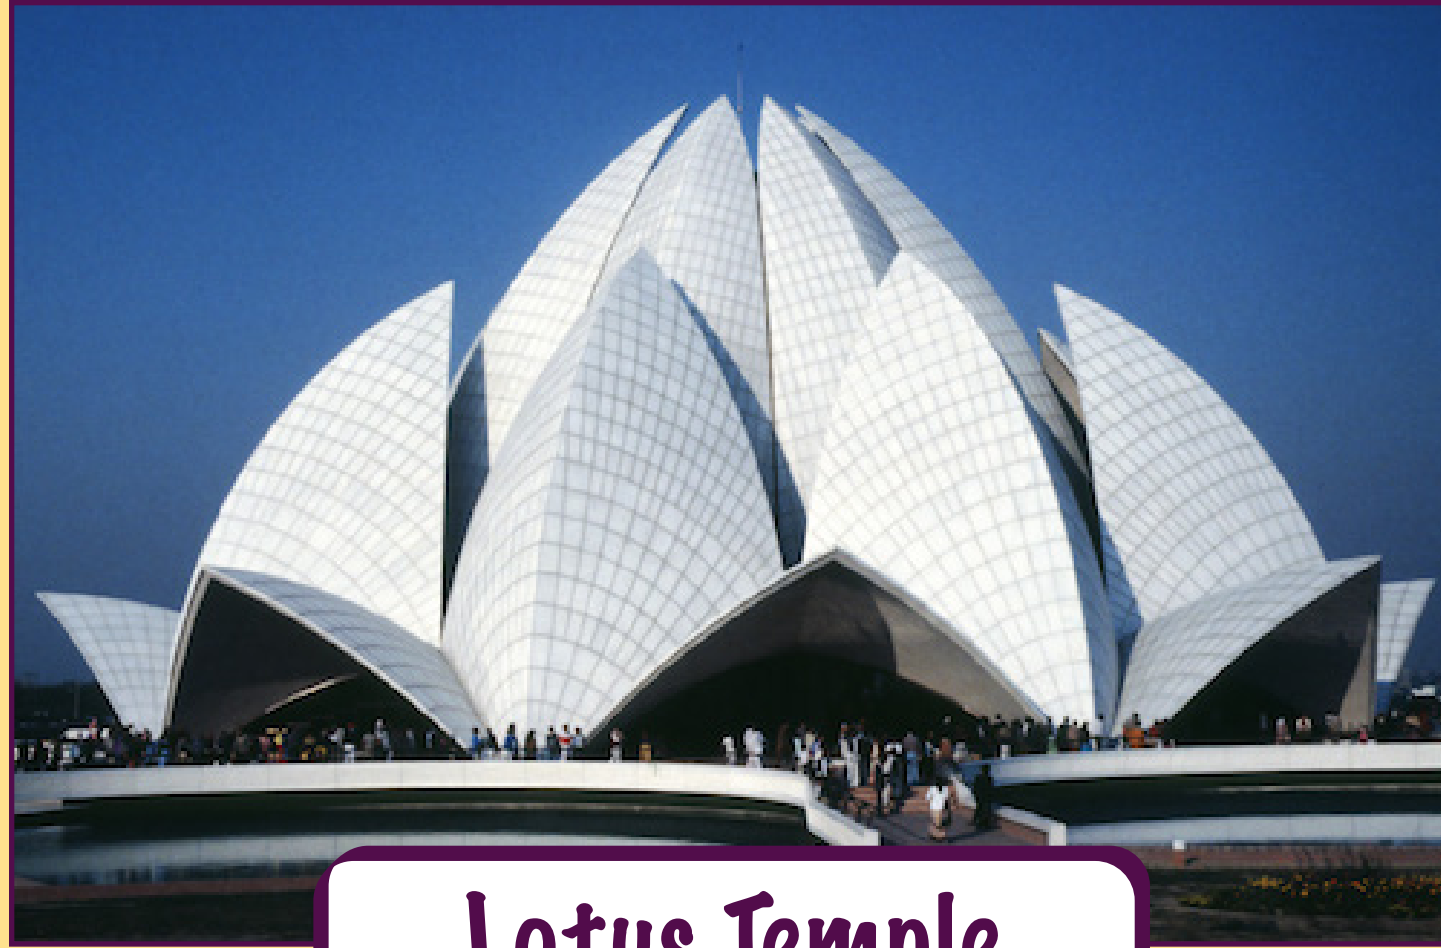

**Let's look at the physical and
human features of these
Indian cities:**

**New Delhi
Mumbai
Kolkata**

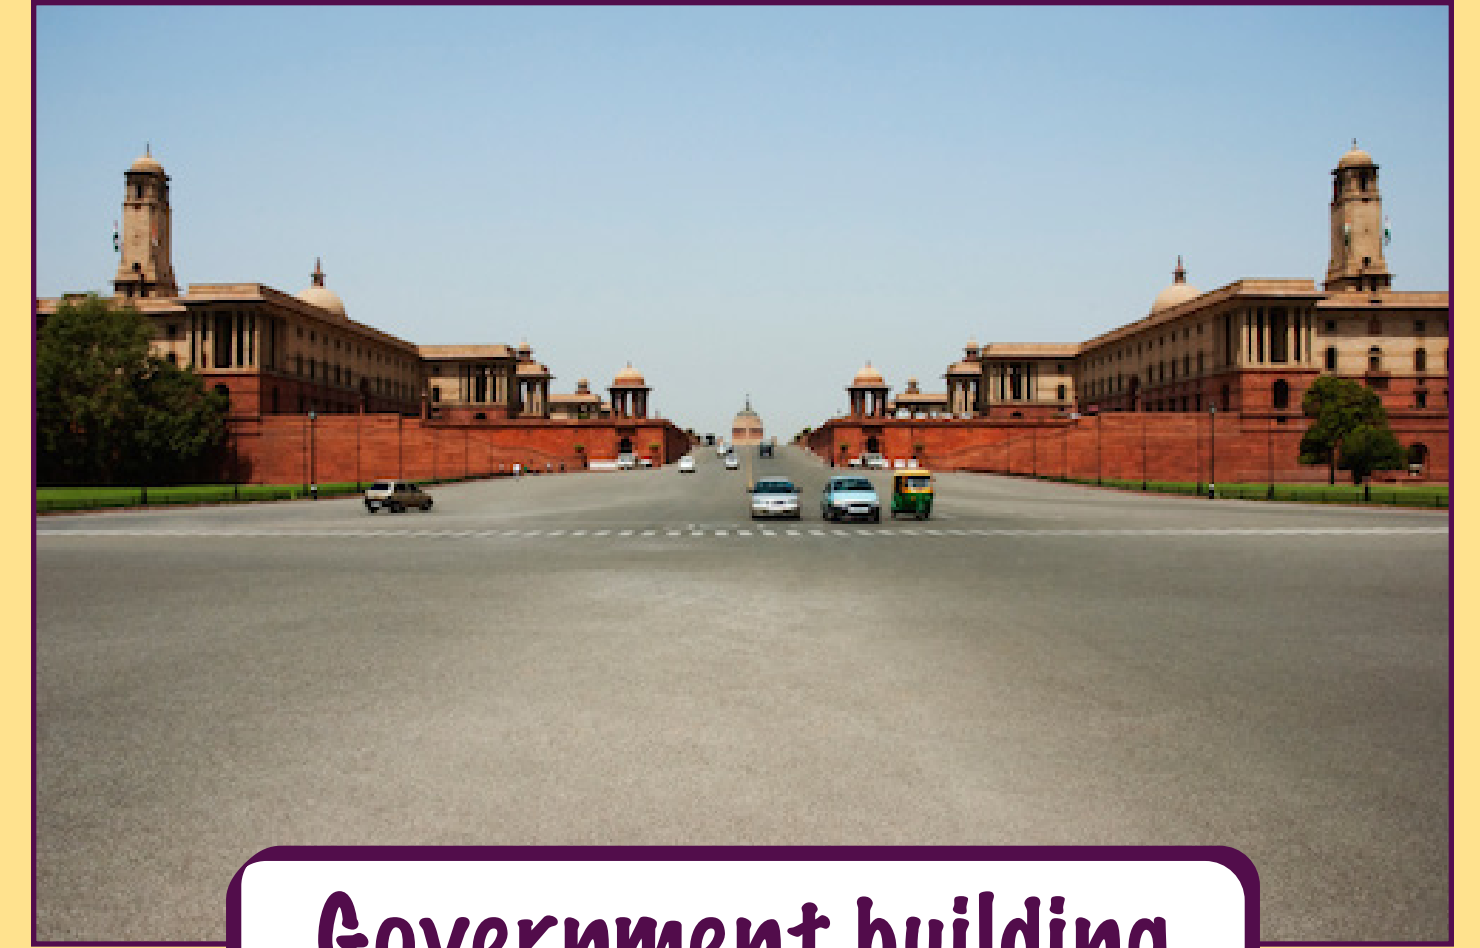

New Delhi

Lotus Temple

Discuss what you
can see? Are
these human or
physical features?

Government building

Humayun's Tomb

Athpula Bridge
