It's Jola's birthday and she is having a party. She has 24 cup cakes to share equally between 3 plates for the party. How many cakes will go on each plate?

There are 8 children coming to the party. They are all going to the cinema. How many cars will they need to take them there? Each car will hold 4 children and they will each need a driver too.

Jola is going to give everyone some chocolate eggs to take home at the end of the party. They fit into egg boxes which hold 6 eggs each. Will 50 eggs be enough for each of the 8 visitors to have a box to take home?
