Changing the Story

Event	Change	A key sentence to use
There was once an empty place full of rubbish		
In the middle was a small house		
In the house lived an old man.		
He dreamed of a jungle full of animals		
Then the old man had an idea which grew into a tin forest		
He walked around the forest lonely and made a wish		
In the morning he awoke in a real jungle full of birds and trees and insects		
There was once a place full of things everyone wanted
